Annual Cumulation

This list represents the receipts of the Library of Congress and other American libraries of post 1944 newspaper titles published in the countries listed or published elsewhere in the languages of those countries. The date of the latest issue received by the Library of Congress is indicated. Transliterated titles are bracketed. Because of the difficulties involved in distinguishing between periodicals and newspapers, the list of periodicals should also be consulted since it may contain titles which are sometimes classed as newspapers.
